African Solution
A Strategic Plan

**Step 1**
Define the Problem

- What are all the parts of the problem?
  - Research
    - After research, can you articulate the problem in a paragraph?
  - Impact
    - How does the problem effect people?
    - How does the problem effect the country?
    - How does it effect other countries?

**Step 2**
What is your goal?

- One sentence
  - Sample: "To control the spread of the ebola virus in Africa."
  - Sample: "Create a business for building wells in Sudan."

Your goal must solve the problem or part of the problem.

**Step 3**
Major Action Steps
Steps toward your goal

- This will be a list of 6 to 10 major steps necessary to solve your problem
  - Major action steps should be "sub-goals" - statements
    - Sample: "Research how Ebola virus spreads."
    - Sample: "Research on how to build a well."
